Republican Meeting on Saturday Evening

It should be borne in mind that Hon. John P. Hale will deliver his closing speech of the campaign, to the Republicans of Bangor, on Saturday evening. The occasion will be one of much interest. The place of meeting will be in front of the Court House.

Are your Names on the Voting List?

If you find your names are not on the list, attend to it in season. The Board of Aldermen will be in session to-day, and on Monday until noon, for the purpose of receiving evidence of the qualification of voters.

See that all Republican Names are on the List.

Look out, not only for your own name, but for that of your neighbor who may possibly neglect the precaution himself. New voters, and those who have recently changed their residence should be especially cared for.

Return of Votes.

Will our friends in the different towns please forward us as soon as possible, after the election, the returns for the several officers voted for—also the yeas and nays upon the amendments to the constitution.

THE FUSION CAUCUS of Thursday evening was certainly one of the thinnest meetings of the campaign. Not 200 persons, besides Republicans, were present at any one time. And yet they reported over 500 votes for their candidates.

NEW MUSIC.—Horace Waters, the famous New-York music publisher and Piano Forte dealer, 333 Broadway, has politely sent us a piece of music entitled "Jeannie Marsh of Cherry Valley." Song and chorus; words by Geo. Morris, music by Thomas Baker.

ELECTION RETURNS.—The Maine Telegraph Company, with its usual liberality, has signified his intention to throw open the lines on the evening of election day, for all reports of elections, except such as are private despatches.

There will be no services or Sunday school at the Universalist Church to-morrow.

Dover, New Hampshire, has accepted a city charter by 44 majority.

The Rev. Mr. Jessup of Bath, will officiate in St. John's Church in this city to-morrow.

MARINE DISASTERS OF 1854.—Mr. E. Merriam states, in the New York papers, that one of his assistants has been for seven months engaged constantly in compiling the accounts of shipwreck and loss of life and property on the ocean in the year 1854. His manuscript page is already number 1,215, exclusive of a large one same command by the index. The number of vessels which have been lost or injured are 1,152, exclusive of steamers and boats on the lakes and rivers, yet to be added, and which will swell the aggregate to about 1600. The loss of life exceeds 2000, and the loss of property may be estimated at the round sum of $10,000,000.

Will you Vote for for this Doctrine?

"The South have a good right to carry slaves into new territory." [*Judge Wells, at Belfast.*

This is the Southern doctrine—the doctrine which John C. Calhoun treated upon,—and the doctrine upon which the South Carolina nullifiers justify themselves in threatening secession from the Union, if slavery is shut out from the Territories. The South claim that the Constitution protects slavery in the Territories, and gives slaveholders the right to carry their "property" with them into these Territories. The Republican party of the North, on the contrary, holds that the Constitution gives Congress and the people of the whole Union ample and full authority over the Territories—ample power to prohibit the introduction of slavery. And this doctrine was held by *Jefferson, Madison*, and all the fathers of the Republic—was practised upon by them, in adopting the principles of the ordinance of 1787—and has been, since that time, sanctioned and put in force, not only by the Missouri Compromise of 1820, but by the terms of the Texas annexation resolutions, and in the act establishing the Territory of Oregon.

But this doctrine, thus renounced and put in practice by Congress, and by the great and patriotic statesmen of the country ever since the formation of the government, is *now practically denied by Judge Wells*, in conformity with the views of Southern disunionists. He says (according to a report in the papers) that "*the South have a good right to carry slaves into new territory.*" Of course if the South had a right to do this, Congress has no right to prohibit it. This agrees with what another of the Democratic speakers (Wyman B. S. Moor, Esq.) said in this city. "He had always opposed the WILMOT PROVISO NONSENSE and always should."

Freemen of Maine! Will you vote with a party whose candidate and leaders hold to such doctrines as this? Or will you vote with any party which is HELPING THESE MEN INTO POWER? Do you *believe* that "the South has a right to carry slaves into national territories?" Do you say that the Wilmot Proviso (prohibiting slavery in free territories) was ALL NONSENSE? If you do, vote for Samuel Wells. If you do not, vote for the Republican candidate, Anson P. Morrill. A vote for Mr. Reed, under the circumstances is equivalent to a vote for Mr. Wells.

Be on your guard against Lies!

As we approach the election, the hunker fusion papers become more and more reckless and desperate in their falsehoods and misrepresentations. The most outrageous lies about the Republican candidates are told with perfect looseness. It is a good and safe rule not to believe a single specific statement you may see in these papers, during the last week or two. The Bangor Journal of yesterday asserts that Anson P. Morrill is a "awful sly"—bad enough to start the fur off a bison. To-day's paper will probably assert that he is guilty of robbing hen roosts; and on Monday, as a last grand charge, we may expect to hear that he has been a highway robber in his youth, and still practises on that business during his leisure hours.

The Journal also treats its readers with the most ridiculous statement, that Judge Lyon of our Municipal Court, charged the jury in a liquor case, that the *guilt* of the defendant must be presumed, and that he could not be acquitted if there was a reasonable doubt of his innocence! The idea, that any school-boy of ten years old should not know that no rule is directly contrary, would be perfectly ridiculous. We heard the charge of Judge Lyon in one of the liquor cases—and know that he then instructed the jury that the benefit of every reasonable doubt should be given to the defendant.

The Journal also has a letter, which has fallen into its hands," accidentally, of course, from a prominent fusion politician, of this city, to a brother in the country, (names being prudently withheld) in which he aforesaid fusionist (the Journal means to be understood a Republican and not a *hunker* fusionist, we suppose,) informs the aforesaid brother that the fusion cause looks "dubious"—that it is allowing to the Maine Law, and that it is agreed upon that these fanatics are to be thrown overboard; the aforesaid fusionist meaning the law and all its supporters in "Tophet."

This discovery of wonderful letters, just on the eve of an election, is a very old and a very stale trick, which the Journal borrows from its old hunker democratic allies. We have known the Age, Argus, Democrat &c. &c. to resort to this "dodge" at every election since we can remember. Having worn it threadbare, they now pass it over to their younger and genteel 'strenuous' coadjutors—the Bangor Journal and State of Maine.

Our general warning, however, should be borne in mind—not to believe a word you may see in these reckless opposition papers, on the eve of the election. They will be as full of lies as an egg is full of meat.

THE CASUALTY ON THE KENNEBEC.—The following is another account of the sad accident, at Swan Island (town of Perkins) in the Kennebec river, near Richmond, which was noticed by us several days since. A Richmond correspondent of the Boston Chronicle says

"On Tuesday afternoon, in the town of Perkins opposite this place, two young ladies, Miss Richards, daughter of P. B. Richards, Esq., of Gardiner, grand daughter of Robert H. Gardiner, and Miss Demeresque, daughter of Captain Philip Demeresque (or Demerick, as it is pronounced) went into the river to bathe, when Miss R. got out of her depth, and in attempting to save her, Miss D. also was drawn into the channel. Mrs Demeresque, who was at the house near by, heard their screams, and ran to the water to rescue them, when in the attempt, she also was drawn in, and all three were drowned. Captain Demeresque was at the time out gunning on the island, and there were no men near the house. All the bodies were recovered, but too late for life to be restored.

Capt. Demeresque and his family are well known in Boston, and, together with Thomas H. Perkins, to whom they are related, spend their summers in Perkins."

FIRE.—Some workmen engaged about the mills in the place on Harwood's dam, on Friday last, set fire to a pile of edgings a distance from the mills. It was only by the unwearied exertion of some two hundred men during the fore part of the day, that the mills and other property therabouts was saved from destruction.

The same night, the house occupied by Mr. E. Thatcher, and owned by Jere O'Brien of this place, located in the Kennebec district, some two miles from our village, was entirely destroyed by fire.—No insurance on furniture, and we do not learn that there was any on the house. Loss $1000.
Skowhegan Union.

A few Candid and Serious Words.

We commend the following considerations, urged by the Portland Advertiser, to the serious attention of every voter:

For every man, the contest is awfully narrowing down to the little ballot he shall cast next Monday. Whatever may have been his talk, his efforts, his motives, his wishes—his vote alone will determine his political character. It will speak for itself, however he may attempt to qualify or neutralize its language. It will speak unalterably and for years to come—and no repentance or retraction can be of the least avail. Let every man then, look well to his vote—to its meaning and its influences—before he approaches the precincts of the ballot box, which should be sacred ground to every freeman.

A REED VOTE IS A WELLS VOTE.

There can now be no doubt of this. The strait-whig campaign, in its very beginning, turned at its vital hostility against the administration of Gov. Morrill—and so significantly withheld any structures upon Judge Wells, that, considering the old relation of parties, it amounted to positive *approbation*. And during the whole canvass, there has been such a complete co-operation among the organs and leaders of Reed and Wells, as to demonstrate the identity of their objects. Now, it is morally certain that Gov. Morrill will lead the other candidates, and if prevented from election by the people, it will arise solely from the *Reed votes*. These, therefore, will go wholly to the benefit of Judge Wells, as giving him a chance (and his only one, as far as the governorship is concerned) of going into the Legislature, and of working out an election here. *Reed can be helped in no possible way.* Of course, he has no prospect before the people—and his demolished force will give him no power in the Legislature. The only effect his friends, therefore, can have in voting for him, will be to aid Judge Wells, *more*, perhaps, than by casting a ballot expressly bearing the latter's name! Is it the part of any man, sharing the honored name of Whig to do this pure and simple *locofoco* deed! For, throwing out of the view the State considerations which should forbid to ignominious a result, it is as clear as daylight, that—

A WELLS VOTE IS A PIERCE VOTE!

The Augusta Convention was under the control of the national office-holders—men who do not let their power go unused, and who are not apt to make bungling work in selecting their tools. The public sentiments of Judge Wells show that, in *this* instance, they met with complete success. No man in Maine for the last three years has apologized so earnestly for the transgressions of slavery or admitted its spirit so much. In all his speeches, there is not one word rebuking the plotters of the Nebraska scheme—not a word rebuking the Kansas outrages of Atchison and Stringfellow! And, in every other respect, he expressly endorses the present Pierce Administration. On the other hand, every sheet and every man connected with the administration, is interested in his election prospects and devoted to his support. It is boasted by his friends that his election will place Maine side by side with the Pierce-southern democracy of Alabama and North Carolina! This will be the effect of every vote cast for Judge Wells, either directly, or indirectly through Issac Reed! Will any intelligent man, therefore, having at heart the welfare of his country, bear the burden of casting such a vote? Rather, will he not gladly embrace the privilege to throw his ballot for our present tried and efficient Governor, inasmuch as—

A VOTE FOR MORRILL IS A VOTE FOR FREEDOM!

There is not a man in this State an objectionable to the Pierce administration as Anson P. Morrill. Every office holder, down to the humblest postmaster, feels it, and makes it his duty to cast every aspersion on the character of Gov. Morrill which his ingenuity can invent. And for the very reason that he latter now stands at the head of that movement which is calculated to rebuke the Nebraska policy of the administration, and to strengthen the entire North in the same noble purpose. Let him be defeated, and Mr. Donald will consider himself vindicated, Pierce will esteem his course sustained, and the vote of Maine, in the next national democratic convention, will be unanimous in approving the repeal of the Missouri Compromise! But let him be triumphantly re-elected, and the hearts of sincere freemen shall everywhere be strengthened, the growing tide of slavery stayed, and not a but FREE STATES added hereafter to our glorious confederacy. Consider the crisis, fellow citizens, and you must perceive these consequences awaiting the alternative. Then, lay aside all local and personal feelings, all prejudices and passions of the hour—and in the light of this high issue, ACT WELL YOUR PART!

MATTERS IN MINNESOTA.—We cut the following from the St. Paul's Minnesotian of Aug 28th

LOGS AND LUMBER.—No logs come down, and there is but a poor prospect for any this Fall.—Heavy rains may come yet, but the lumbermen now have little hope. The men who went up a few weeks since hoping for a drive, were able to get quite a quantity of logs down a few miles, but there they stick. But one saw in the St. Anthony mills has been running for more than a week, except at a few hardwood logs occasionally come in as custom work.

HARD TIMES.—The times are tight, and will probably be tighter. Money is scarce, and it will probably be scarcer. We have raised nothing this year for exportation, and even our surplus lumber cannot be got to market. The river is constantly running itself down, freights are pretty stiff, and and all sorts of business dull as August.

WARLIKE INTENTIONS.—The Troy (N. Y.) Whig says that the present war in the East has given a great impetus to the development of inventive energy, and has been more productive of destructive agents than any other era recorded in the annals of history! But we venture to assert that few of our citizens are aware of the fact that a corps of engineers and mechanics, intelligent and competent men, are at present busily employed in this city in experimenting upon the construction of several improved machines, recently devised by the inventive fertility of our ingenious Yankees. Yet such is the fact. One of the machines now in course of construction, is a bomb proof marine battery, designed to be propelled either upon or under the surface of the water at the rate of twenty miles an hour. This machine, when directed against the ship of an enemy, will rent and hurl, and tear, its way with irresistible force. No patents for the invention have been taken out, nor, the matter is kept as secret as possible.

We have received a letter from a friend in a town in his county which says, "Set down the net gain for Gov. Morrill in this town more than five hundred will fully!"—*Portland Advertiser.*

Republican Caucus—Grand Rally.

The Republicans of Bangor assembled this evening agreeable to notice, to nominate two candidates for Representatives to the State Legislature.

On motion of Geo. W. Ingersoll, Esq. T. A. White, Esq., was chosen chairman. Albert M. Palmer and J. Fenno were chosen Secretaries, and William P. Wingate, J. C. Mitchell and A. D. Manson, Esqs., were chosen a committee to sort and count the votes.

Voted, To proceed to ballot for two candidates for Representatives. On the first ballot 517 votes were thrown, 403 of which were for Gen. S. P. Strickland. On the second ballot, 403 votes were thrown, 359 of which were for H. E. Prentiss, Esq., and they were declared elected.

Messrs. Prentiss and Strickland appeared, accepted the nomination, with some appropriate remarks.

W. H. McCrillis, Esq., being loudly called for, appeared and made some eloquent remarks which were enthusiastically received.

H. P. Mudgett, Esq., offered the following Resolution, which was adopted by acclamation:

Resolved, That the Republicans of Bangor have entire confidence in the patriotism, integrity and ability of Gen. Samuel P. Strickland, and Henry E. Prentiss, Esq., the nominees of this Caucus, and we recommend them to the Citizens of Bangor to be elected on Monday next; and Resolved, that we WILL ELECT THEM.

The following named gentlemen were chosen Republican City Committee for the ensuing year, viz: William Boyd, Dr. J. C. Weston, J. S. Downe, M. E. Rice, J. S. Wheelwright, Thomas Cowan, Isaac R. Clark.

The following named gentlemen were elected vote distributors for next Monday, viz:

WARD 1.—William Boyd, Eben Pool, C. O. Record, F. H. Dillingham, Albert Smith.

WARD 2.—Isaac Dunning, E. P. Lanel, J. G. Weston, Albert Holton, Z. P. Estes.

WARD 3.—J. C. Mitchell, O. H. Ingalls, Albert Dole, J. N. Downe, A. C. Leighton.

WARD 4.—J. C. Flint, Joshua Fellows, M. B. Rice, — Donnett, J. R. Merrill.

WARD 5.—John S. Ayer, J. B. Carr, F. Whittier, N. B. Newmatch, B. F. Mudgett.

WARD 6.—H. D. Stewart, N. S. Persons, S. S. Low, P. B. Mills, Thomas Cowan.

WARD 7.—D. P. Wingate, G. Fogg, D. W. Gould, C. W. Jacques, G. Bragdon.

Voted, To adjourn to Saturday night, to hear the Hon. John P. Hale.

Adjourned with three cheers.

THOS. A. WHITE, Ch'man.
J. FENNO, A. W. PAIVE, } Secretaries.

The Contest which is upon us.

The New York Evening Post publishes an able letter, written by a Virginian, relative to the comparative progress of New York and Virginia as shown by the last census. After dwelling upon the contrast, so unfavorable to his own State, and finding in its institution of slavery the one great cause, the son of the Old Dominion concludes, referring to the struggle now going on in Kansas and Nebraska.

For one, I look with admiration at the struggle which the friends of freedom are making at this eventful crisis; and with horror at the dismal ravages of our Atchisons and Stringfellows, who, like a band of Catalines, would willingly destroy every thing lovely and beautiful in our country, and even the glorious Union itself, with all its substantial blessings and hallowed associations, to gratify the malignant desire of elevating themselves upon the prostrate form of Liberty, and of seeing the black flag of Slavery wave in triumph over us. Oh, my God! how utterly magnificent have been all former questions of public policy agitated in this country for the last forty years, when compared with the sublime issues awaiting us in the coming contest!

But it is consoling that our cause is the cause of freedom, and that we can say with Patrick Henry, 'There is a just God in Heaven, who presides over the destinies of nations, and will fight our battles for us if we are active, vigilant and brave.' Do not believe either that those who now inhabit the land of Washington and Jefferson will all prove recreant to the principles of '76. No—No. The spirit of Mammon and the power of despotism are not all-prevailing in the sunny South, and at this time many an ardent prayer for the triumph of freedom is offered up, and many a stout heart is ready to do and to suffer, if need be in her sacred cause and name, in every town and county in the good old Commonwealth of our still dear, though at present, and only for the present, deluded VIRGINIA.

BARRELS.—It is said that when any one sees a load of barrels go by, it is a sign of rain. If signs are true in this respect, some portions of Salem must experience a continuous wet season, as there is about a hundred thousand dollars worth of hogsheads, barrels, kegs, &c., manufactured in that place annually. In making these articles, they work up 180 tons of hoop iron, which is worth from $100 to $125 a ton, over 300,000 staves, worth $100 a thousand, and a considerable quantity of wooden hoops. The staves are brought by the cargo, mainly from Michigan, by way of Albany. The hoops come from Maine and a few of our country towns.—*Boston Times.*

THEY WERE THERE.—It is related on reliable authority, that upon the arrival of the allied fleet at Petropawlaski, on the Northwest coast, on the 21st of May, which place the Russians had evacuated a few days before, three Americans were found in possession who claimed it as their individual property, and raised the stars and stripes in the face of the allies in support of their rights. The allies were just a few days too late. The universal Yankees had found their way there, while peddling clocks and other "notions" among the Kamschatkans and other Polar nations.

HOW THE "ALLIANCE FUSION" OF THE HUNKERS IS WORKING.—Just as we expected, Democrats in all parts of the county, who, till the fusion meeting at Athens, designed to vote for Judge Wells, refuse now to coalesce with these *consistent* defenders of "pure whiggery," Getchell, Fuber & Co. and strait whigs declare that they will never be sold out to P. M. Foster, Geo. Whitney and Levi Johnson. If fusion is to be the order of the day, they may *as well* fuse with Republicans as with other parties, and they say they will do the former.—*Skowhegan Clarion.*

ANOTHER RAILROAD ACCIDENT.—At West Randolph, Vt., a heavy freight train of 30 long cars on the Vermont Central Railroad came in collision with the night o'clock express train from White River Junction, on Tuesday morning.—None of those on board were seriously injured, the baggage master was bruised slightly. The seats in the first passenger car were nearly all broken up. The conductor of the passenger train had a right to the road. The passengers examined mostly of spiritualists, returning from a convention at South Royalston.

THE CROPS IN THE SOUTHWEST.—A gentleman who has just returned from a tour through the corn valleys of the southwest, informs the editor of the Hamburgh (S. C.) Pioneer, that the grain crop is safe in the extreme. So abundant and promising are the prospects, that the husbandmen seriously expect to harvest an abundant supply for four years, positive there was no market for the sale of it. At Memphis Tennessee, he saw an engagement made for the delivery of 10,000 barrels of corn at seventy cents per bushel.

Nice young man, that!—*Dexter Gem.*

More of the Silver Lake "Snaik."

AN IMMENSE LIVING CREATURE IN SILVER LAKE.

Even the Wyoming Times.

If the statements of twenty of our best known citizens, with which we have been furnished, will afford the public sufficient evidence of the existence of an immense living creature in Silver Lake, it is at their disposal, and the names of the parties—all among the most reliable and well known in this community, one an ex-Judge of an adjoining county, the others merchants, lawyers and mechanics, together with several ladies—will be furnished to any one who may desire them.

On Friday last a large party visited the Lake. A party on a pic nic excursion encamped above Chapin's Landing in the grove, a large company of visitors from various parts of the State were there, and many of our citizens accompanied by friends took positions on the jutting promontory near the foot of the lake—a point near which the mammoth Serpent has been seen by so many persons during the past and present month. Probably there have not been more persons at the Lake at one time any day this season, Sundays excepted.

About 2 P. M., the afternoon being one of the pleasantest of the season, having learned that there was a large collection of persons at the Lake, we concluded to make one of the party. We entered the Lake from the outlet, found several boats near the centre of this beautiful sheet of water, quite a number of persons on the point of the promontory and two or three hundred more near Chapin's Landing. We were arranging to hoist sail, when several of the party on the point shouted at the same time for us to return, stating that there was something moving on the water, near the inlet, on the west side of the Lake. Young Turte I was our companion in the boat. We rowed back, took in an ex-judge of an adjoining county and proceeded towards the inlet, carefully scanning the route, but seeing nothing in the shape of fish or fowl. In the space of half or three-quarters of an hour we had lanced the ex judge at the point and proceeded up the Lake.

AN ACCOUNT OF WHAT THE PARTY SAW:

BY ONE OF THE NUMBER.

"I saw a dark looking object about six rods above the inlet near the edge of the rushes. A hawk was circling about there and glided around several minutes. Directly under the hawk a dark looking object appeared upon the water, larger than a man's hat. The portion of the body above water appeared to be following the movements of the hawk and watching it. The Lake was smooth and quiet. Very little wind stirring. After following the movements of the hawk for some ten or fifteen minutes, the latter descended to within about eight feet of the water, and the object darted out of the water full three feet towards it, and came down again causing a great deal of commotion in the water—the water splashing to a height of three or four feet. The object then moved off and disappeared.

"In about ten minutes I saw a large wake, as of something moving in the water near the inlet on the west shore. The swells came out from the rushes and extended past the mouth of the inlet. The wake was larger than is made by boats on the lake. I saw nothing to occasion the swells."

The above statement by one of the party represents what twenty or twenty five responsible persons saw from the same point of view, and before we had rounded to and reached them with the boat. There was no boat on the Lake within three-fourths of a mile of us at the time we were hailed by the party, and none at the north end of the lake. With the ex-judge we penetrated the rushes, and rowed in various parts of the lake where the object had been seen but neither of the three in the boat discovered anything to cause the commotion in the water, and not a person was near that part of the lake on the west shore.

WHAT THE PARTY SAW AFTERWARDS.

BY THE SAME PERSON.

"Some fifteen minutes after you left the point and had gone up the Lake, I saw a dark looking living object moving on the water some three or four rods from the inlet. It moved out from the inlet in a direction nearly across the lake. As it continued in its course towards us, I saw a dark streak on the water behind the object, six or eight feet long. The moving object bowed round and took a direction up the lake, appearing and disappearing alternately at different points, thirty or forty rods distant from where I was standing, until it was nearly opposite where I was, and until it entirely disappeared. I stood upon a box part of the time and looked at it from the shore. Nearly all the party saw that point has the same view of it. The whole time from its first appearance to its disappearance was nearly one hour. From the box with the spy glass, it appeared to be a foot or a foot and a half above the water. Others on the shore stooped down and looked at it over the surface of the water, and reported that it appeared to be six or eight inches above the surface. I have no hesitation in saying that it was a LARGE LIVING CREATURE of some kind. I know it was—there is no guessing about it. I saw it as distinctly as I now see you in that chair. The water was so smooth that a cane could have been seen on the surface the same distance. At one time, and just before its final disappearance, I saw at least forty feet of it at one point, stretched out up and down the lake, and nearly opposite one extreme point, and some fifteen feet distant, another dark object or a continuation of the one alluded to, some twenty feet long.

Smith, the whaleman was there. He sent for the spy glass, and after looking at the object, and becoming satisfied that it was a living thing, took his harpoon and lances and went to the spot. When within twenty or thirty feet of it, he says he saw a portion of it gradually disappearing. When he first saw it, it was some two feet under the water. It continued disappearing rapidly, and did not again come to the surface."

The persons who recognized at the point from which the object was seen, the statements of two of whom are given above, were Messrs H. K. Whelpley, D. L. Gilman, Chas. W. Bailey, Cyrus Merrill, R. C. Mordoff, and J. B. Gilman.

TWO SERPENTS SEEN MONDAY EVENING.

We learned yesterday morning that Henry Purcell, John Hallowel, and young Ames, of West Perry, saw the Silver Lake Serpent Monday evening. We have conversed with two of the party and their story is about as follows:

We were on the shore at the mouth of the inlet, and afterwards go into a boat there.—We were watching for the Serpent. Between eight and nine o'clock we saw what appeared to be a serpent come out of the rushes between us and the outlet, and moved up the lake, as fast as a boat is usually rowed. His head was from six inches to one foot out of water; and we could see from thirty to forty feet of his body. We could not see any snake like movements. But a short distance behind him another made his appearance going in the same direction but not so large. The second one was some thirty feet long. We could not discover the propelling power of either—though his head moved backward and forward as he went up the lake. We saw them ten or fifteen minutes; they both disappeared nearly opposite the point of the promontory.

We hear that one of the clergymen of the place received for a marriage fee a one dollar bill on the Ship Builder's Bank. Justice, however, requires us to say, that the happy bridegroom, on learning of his mistake, redeemed the bill by paying in its stead forty-two cents.

A witty gentleman of this city, speaking of a friend who was prostrated by illness, remarked that "he could hardly recover, since his constitution was all gone." "If his constitution is all gone," said a bystander, "I do not see how he lives at all." "Oh," responded the wag, he lives on the by laws."—*Buffalo Express.*

We understand that the entire horse, Bay Morgan, better known as the Drew Horse, of Exeter, has been sold to a New Yorker for $4,000, with the use to the proprietor, Drew, for the present season.—*Journal.*

Holloway's Ointment and Pills have effected another Wonderful Cure of Bad Legs. Andrew Harman Beard, of Mannsburg, Virginia, was a sufferer for nearly eighty years from sore legs so bad at times that human nature could scarcely bear it, as they were covered with wounds and proud flesh. His friends had given up all hopes of his ever recovering the use of his limbs, so he was to go public a burden, especially as the doctors had told him it was constitutional. Having heard of so several people the good effects Holloway's Pills had produced in cases of this nature, he made up his mind to give them a trial, and, as among them for a few weeks, he felt much better, and by continuing them a few months and a little he was perfectly cured, after being 36 years a cripple, and consequently beyond human aid.

AGENCY FOR BUSINESS WITH U.S. PATENT OFFICE

WASHINGTON.

No. 76 State Street, opposite Kilby St., BOSTON.

IMPORTANT INFORMATION to Inventors The subscriber, (late Agent of the U. S. Patent Office, under the Act of 1836,) determined to present advantages, in applying for Patents, superior to those offered inventors in others, has made arrangements whereby on applications prepared and conducted by him, THIRTY DOLLARS (instead of *twenty*, as paid back by others,) will be refunded by him in the case of a failure to obtain a patent, and the withdrawal thereof within thirty days after the rejection Caveats Specifications, Assignments, and all necessary papers and drawings, or procuring patents in this and foreign countries prepared, and advice rendered on legal and other matters respecting patentees, and management of patents

Inventors can not only here obtain their specifications on the most reasonable terms, but can avail themselves of the experience of 20 years practice, an extensive library of legal and mechanical works, and correct accounts of patents granted in this and other countries, besides being saved a journey to Washington, the usual delay there, as well as all personal trouble in obtaining the patents. Copies of claims of any patent furnished by remitting one dollar. Assignments recorded at Washington

R. H. EDDY

Solicitor of Patents

"Having the time been in the office of Commissioner of Patents, R H Eddy, Esq., formerly held seat at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business look to the Patent Office, and there were none who conducted it with more ability, fidelity, and success. I regard Mr Eddy as one of the best informed and most able of Patent Solicitors in the United States, and have no hesitation in assuming it, because that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them as early and favorable consideration at Patent Office

California Steamers,

Carrying the United States Mail.

5th and 20th of each Month.

Reduced Prices	100 lbs. Baggage Free

Through Tickets, including passage of the Isthmus, via Panama R R

By order of the Postmaster General, the United States Mail Steamers will hence be despatched from New York direct to Aspinwall, on the 5th and 20th of each month

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific steamers *without any extra expense*. This is the only line giving entire Through Tickets, including meals, on the Isthmus

Transit made in *four hours, entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague, also 250 miles of dangerous lake and river navigation over rocks and shoals

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage, without any delay on the Isthmus

☞ *Tickets must be purchased by one of the Company's Agents before they will be recognized by the Agent at Panama*, and Tickets thus issued can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent

Radway's Regulators.

The Third Great Medical Discovery of Radway & Co.

ONE REGULATOR is sufficient to regulate the Bowels, Liver and Pancreas, to a healthy discharge of their functions.

Two will insure a pleasant discharge from the Bowels, at a regular period of time every day

Four to six will purge thoroughly all corrupt and acrimonious humors from the alimentary canal

Important to Pill Takers

Every one who is in the habit of taking pills will find RADWAY'S REGULATOR the most pleasant, safe, and effectual regulator of the Bowels, Liver, Pancreas, and the most *certain Purifier of the Blood* in use

One of *Radway's Regulators* is an error, in point of medical strength and efficacy, to six of the most popular and best approved cathartic pills

Radway's Regulator.

Radway's Regulators are most carefully prepared from extracts and gums of herbs, plants, roots and berbs. They are no pills to use that will act upon the Liver, Pancreas Bowels, the Salivary Glands and Nerves, so pleasantly and effectually as the R. R. REGULATORS No pills can be taken for any length of time with the same safety to the constitution, for, instead of debilitating the system by powerful and drastic purging, they act pleasantly upon the bowels, and impart strength to every nerve and tissue of the body.

Regulators vs. Pills.

We are continually asked, What is the difference between Radway's Regulators and ordinary pills?

We answer that pills, as they are ordinarily prepared and sold by different manufacturers, are generally of two kinds—those which operate on the bowels merely, called purgative pills, and those which excite the secretion of the liver, and are called mercurial or liver pills Radway's Regulators resemble pills merely in shape, but differ in every other characteristic. They act not only on the bowels, but on the liver, skin, pancreas, and kidneys, regulating each organ to a healthy action They are not drastic, and never give pain as most purgative pills do they stimulate the liver without endangering the patient with salivation, as mercurial pills do contain no mineral salts in their composition, they are harmless when used for a length of time They are tasteless, being enveloped in an elegant coating of gum 1 to 3 regulate, 3 to 6 purge—good at all times.

As a Family Physic

RADWAY'S REGULATORS are the most innocent, safe, mild and pleasant pills in use. They are a quick and certain cure for Costiveness, Indigestion, Liver Complaint Kidney Complaint, Jaundice, Head Aches, Drowsiness, Melancholy, Diseases of the Bladder,

Female Complaints,

Leucorrhoea, Whites Albus, Whites and Irregularities of all kinds

Bilious Diseases,

Bile on the stomach, Bilious Choice, Enlargement of the Spleen, and all Chronic Affections of the Liver and Kidneys.

R. R. R. REMEDIES are sold by Druggists everywhere.

For great cures performed in a short time by R. R. Relief, see next week's paper R. R. R. Remedies act quick—the moment they are taken or applied their health-relieving efficacy is experienced.

TESTIMONY FROM MAINE

Capt Daniel Abbott, Brooklin, Maine, July 16, 1853, says: "I was taken sick one year ago last April upon my passage from Havana to Charleston, S C. At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite At last taking up a newspaper having your advertisement of "Hoofland's German Bitters" in it, I sent for some immediately. This was about 10 o'clock, at 11 o'clock I took the first dose, and another at 6 o'clock. The effect was so rapid on me that I had a good appetite for supper, and rested well that night, and the next day found me a well man—I have not been without your medicine since, having been sailing between Baltimore, Charleston, and the West India Islands ever since I have now given up going to sea and reside in this place, (where you should have an agent), as you could sell large quantities of it."

Jos. B Hall & Co, Presque Isle, Aroostook Co, Maine, April 24, 1854, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters We think Mr. Clark to be a man of veracity, and have no doubt of the truth of his story."

Messrs Jos B Hall & Co—Gentlemen—In answer to your inquiries I will state that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle*. She had taken it but a few days when she began to improve, and now, after taking *only one* bottle, she is enjoying better health than she has for years—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters. WILLIAM CLARK.

Salmon Brook, Aroostook Co., Me

You should bear in mind that these Bitters are *entirely vegetable*, thereby possessing advantages over most of the preparations recommended for similar diseases.

KENNEDY'S MEDICAL DISCOVERY

The Greatest of the Age!

MR KENNEDY, of Roxbury, has discovered in one of our common native weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common pimple He has tried it in over eleven hundred cases, and never failed except in two He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston

Two bottles are warranted to cure a burning sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will cure the system of biles.

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst cases of erysipelas

One to two bottles are warranted to cure all humors in the eyes

Two bottles are warranted to cure running in the ears and blotches in the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ring worm

Two to three bottles are warranted to cure the most desperate cases of rheumatism

Three to six bottles are warranted to cure salt rheum

Five to eight bottles will cure the very worst case of scrofula.

A benefit is always experienced from the first bottle, and a perfect cure warranted when the above quantity is taken

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as, that a common weed, growing upon the pastures, and lading old stone walls, should cure every humor in the system, yet it is now a fixed fact If you have a humor it has to start There are no ifs nor ands about it, so long some cases but not yours He has peddled over a thousand bottles off in the vicinity of Boston, and knows the effects of it in every case. It has already done some of the greatest cures ever done in Massachusetts He gave it to children a year old, to old people of sixty, and has seen puny looking children, whose flesh was soft and flabby, restored to a perfect state of health by one bottle

To those who are subject to such headache, one bottle will always cure it It gives great relief in catarrh and dizziness Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature, it will cause very singular feelings, but you must not be alarmed—they always disappear in from four days to a week—There is never a bad result from it—on the contrary, when that feeling is gone, you will feel yourself like a new person. I heard some of the most extravagant encomiums of it that ever man listened to

No change of diet ever necessary Eat the best you can get and enough of it.

The Root and Herb Bitters have cured the past year, 19,000 cases of JAUNDICE,
11,000 cases of LIVER COMPLAINT,
17,000 cases of DYSPEPSIA,
20,000 cases of BAD HUMOR,
25,000 cases of COSTIVENESS,
13,000 cases of PILES,
19,000 cases of COUGHS and COLDS, and have cured and benefited more than 200,000 persons besides.

Diseased livers—foremost of the van,
Weak lungs and conquered by great Langley's plan
Next gloomy Jaundice, troubling land the mind,
By Langley's Bitters forced at last to yield—
Then dread Dyspepsia left the scene of strife,
Nor dared to face the glorious triumph of life
Bile, Headache, Humors, Piles and Costiveness,
Three dreaded ills which cause such wretchedness,
By Langley's Bitters, are forced to yield,
While Health and Strength united take the field.
Are your temperance folks—when this medicine is used,
Nor drink alcoholic in lieu of it advised,
Nor need the foul mother feel anxious alarm,
To the tendrest infant it cannot do harm.
Pleasant to take and always does good.

DR. J. H. SCHENCK'S PULMONIC SYRUP,

For the Cure of Consumption.

THE proprietor of this medicine was himself many years ago, reduced to low as to be given up by his physicians and friends in the last stage of Consumption When all hopes of his recovery were gone, he was strongly recommended to use a Syrup made from a wild herb, which succeeded in effectually curing him The family physicians and a large number of respectable gentlemen certified to the facts of this case, and soon the Pulmonic Syrup obtained a reputation never equalled in that section of the country. Creating, as this case did, a sensation around to that only of a miracle Dr Schenck was sought upon by many similarly afflicted, to whom he administered the syrup with the same beneficial results In fact, such was the notoriety of this medicine, that eminent physicians had their attention drawn toward the rising reputation of it, from having witnessed its curative powers and freely extended the hand of friendship and encouragement to Dr Schenck, and introduced the medicine to the public and used it in their daily practice

No other medicine operates upon the system in the manner that the Pulmonic Syrup does It produces a healthy action upon the diseased parts, by purifying them from decay, it generates the expectoration, alleviates the cough, ripens the matter on the lungs, and when it is discharged, it heals the opening that the breaking of the tubercles or abscess produces, and the lungs become sound and resume the performance of their natural functions it also soothes the irritated portion of the lungs and other organs, and thus restores these parts to health A superior property the medicine possesses over all others is that it contains no opium calomel or any other deleterious medicine

In 1844 Dr Schenck removed from Flemington New Jersey, to Philadelphia, and commenced the practice of his profession where he soon acquired a reputation excelled by none, returning a dividend that has increased from decade to decade, and he has since then daily put cured to the world unquestionable evidence of his success

Both of his parents died with Consumption, which appears to have been a hereditary disease with his father's family All his brothers and sisters except one, died early of this disease, none of them, but the one brother, reaching the age of twenty

Thus left nearly the last of his family he naturally felt some alarm, as one after another were consigned to the silent tomb by this fell destroyer diffused.

Sold by Druggists generally throughout the United States and Canadas, and by Agents in Bangor, at Gilbert & Blanchard's, Ingraham, and Kelley & Hayes's drug stores every where

VOLUNTARY TESTIMONY.

We, the subscribers, residents of Flemington, do hereby certify that we are well acquainted with Dr J H Schenck He was attacked by disease, which, we believe, terminated in Pulmonary Consumption, under the operation of which he was reduced so low as to be unable to leave his bed for a long time, and to all appearance was past recovery He is now perfectly well—his cough and fever have left him, and we feel justified in declaring it as our belief that these salutary effects have resulted from the use of the Pulmonic Syrup
